

Glory in the Skies: A Total Solar Eclipse Event

Monday, April 8, 2024

Noon – 5 PM

**Free Event – Free Parking - Fun Activities
Food Trucks - Live Programs - Live Music**

Join Us! Don't Stay Alone in the Dark!

Hope Church, 1905 Pearl Rd, Brunswick, OH 44212

On April 8, 2024, a once-in-a-lifetime experience came to Northern Ohio: A total solar eclipse! Located in Brunswick, Ohio, Hope Church was within the path of totality, which means residents and visitors were able to experience several minutes of darkness when the moon passed between the sun and Earth, completely blocking the face of the sun. Hope Church is blessed with 10 acres of mostly open sight lines, so we set up a festive day complete with fun activities, food trucks, live programs & live music. Thank you to everyone who attended! Below are some highlights in photos.

You can view more photos on our [Flickr Album](#). (Account not required.)

Because we wanted to ensure our neighbors could view the eclipse safely, Hope Church offered Free Solar Eclipse Glasses throughout our surrounding communities!

Hope Church is blessed to have three NASA retirees as members serving in various leadership roles. One of them presented informative and inspirational programs. View our [full schedule of programs](#) for times and details.

We partnered with Medina Creative Housing (MCH) which serves the Northeast Ohio area by providing a comprehensive lifestyle for individuals with developmental, intellectual, and physical disabilities including housing, supportive services, and programs. In partnership with MCH, Hope Church was awarded a mini-grant by the Solar Eclipse Task Force of the American Astronomical Society (AAS) to expand our combined reach to people with disabilities. We ensured their residents, families, staff and volunteers could view the eclipse safely while maximizing their understanding and appreciation for this once-in-a-lifetime event over their neighborhoods. We also engaged non-native English speakers with English as a Second Language (ESL) programming with visual references for each via student group that will incorporate eclipse science principles including physics and astronomy with a focus on the physics of the Sun, Earth and Moon with an emphasis on safety.

Thank you to the following food vendors for attending the event:

We were also pleased that Moody Radio Cleveland (WCRF 103.3 FM) was broadcasting live from Hope Church. Their Mornings with Brian show was live from 6:00-9:00 a.m. During the event, listeners could stop by and meet Brian and the team that brings you Christ-centered discussions packed with biblical insight and practical advice. They also broadcasted live during the eclipse festival from 3:00-4:00 p.m. providing insights and commentary about this once-in-a-lifetime experience.
